COMPLAINT

Do you want a jury trial? ☑ Yes □ No

NOTICE

The public can access electronic court files. For privacy and security reasons, papers filed with the court should therefore not contain: an individual's full social security number or full birth date; the full name of a person known to be a minor; or a complete financial account number. A filing may include only: the last four digits of a social security number; the year of an individual's birth; a minor's initials; and the last four digits of a financial account number. See Federal Rule of Civil Procedure 5.2.

I. BASIS FOR JURISDICTION

Federal courts are courts of limited jurisdiction (limited power). Generally, only two types of cases can be heard in federal court: cases involving a federal question and cases involving diversity of citizenship of the parties. Under 28 U.S.C. § 1331, a case arising under the United States Constitution or federal laws or treaties is a federal question case. Under 28 U.S.C. § 1332, a case in which a citizen of one State sues a citizen of another State or nation, and the amount in controversy is more than \$75,000, is a diversity case. In a diversity case, no defendant may be a citizen of the same State as any plaintiff.

What is the basis for federal-court jurisdiction in your case?
☐ Federal Question
☐ Diversity of Citizenship
A. If you checked Federal Question
Which of your federal constitutional or federal statutory rights have been violated?
B. If you checked Diversity of Citizenship
1. Citizenship of the parties
Of what State is each party a citizen?
The plaintiff,, is a citizen of the State of (Plaintiff's name)
(State in which the person resides and intends to remain.)
or, if not lawfully admitted for permanent residence in the United States, a citizen or subject of the foreign state of
If more than one plaintiff is named in the complaint, attach additional pages providing information for each additional plaintiff.

If the defendant is an individual:		
The defendant, (Defendant's n	name)	, is a citizen of the State of
or, if not lawfully admitted for subject of the foreign state of	permanent residence in	the United States, a citizen or

IV. RELIEF
State briefly what money damages or other relief you want the court to order.

V. PLAINTIFF'S CERTIFICATION AND WARNINGS

By signing below, I certify to the best of my knowledge, information, and belief that: (1) the complaint is not being presented for an improper purpose (such as to harass, cause unnecessary delay, or needlessly increase the cost of litigation); (2) the claims are supported by existing law or by a nonfrivolous argument to change existing law; (3) the factual contentions have evidentiary support or, if specifically so identified, will likely have evidentiary support after a reasonable opportunity for further investigation or discovery; and (4) the complaint otherwise complies with the requirements of Federal Rule of Civil Procedure 11.

I agree to notify the Clerk's Office in writing of any changes to my mailing address. I understand that my failure to keep a current address on file with the Clerk's Office may result in the dismissal of my case.

Each Plaintiff must sign and date the complaint. Attach additional pages if necessary. If seeking to

proceed without prepayment of fees, each plaintiff must also submit an IFP application. 05-13-2024 =SINOR Middle Initial URK State 646-500-4470 Telephone Number Email Address (if available)

I have read the Pro Se (Nonprisoner) Consent to Receive Documents Electronically: Yes No

If you do consent to receive documents electronically, submit the completed form with your complaint. If you do not consent, please do not attach the form.

Comparison: 10/14/2023

Electronic Signature: I personally reviewed the images and agree with this report. Final Report: Dictated by and Signed by Attending Lucy Modahl MD 3/28/2024 8:37 PM

Findings / IMPRESSION: Lungs and pleural spaces are clear. Mediastinal contours and cardiac silhouette are unremarkable. No suspicious lesion in the bones.

Access to Clinical Notes and Test Results

At NYU Langone Health, we believe that sharing information supports patients taking an active role in their health. In support of this, clinical notes and test results are made available to patients in MyChart and the NYU Langone Health App, as soon as they are available. This is in accordance with the 21st Century Cures Act, which is intended to give patients and their healthcare providers secure access to health information. (www.healthit.gov/curesrule)

This means that a patient may see test results before their health care provider does. If you do access your test results right away, please keep in mind that some results may be hard to interpret without guidance from a health care professional. All results will be reviewed by members of your care team. They will continue to follow-up with you as they have done in the past.

If you feel that any of the information in this summary is inaccurate, please talk with your healthcare provider.

Nation About Medication Safety

It is important to keep an updated record of the medications you are taking, and to bring this updated list of medications every time you visit your Health Care Provider and when you come to the hospital. We want to help you in managing your medications safely after your visit or discharge. This includes the potential side effects of your medications. If you have any questions regarding the medications you are taking, please speak to your Health Care medications or Pharmacist.

Finding a Physician Within NYU Langone Health

As one of the nation's premier academic medical centers, NYU Langone Health is devoted to excellence in patient care, education, and research. We are proud that our care team includes leading specialists for every condition.

Additional NYU Langone Health Resources & Care Options

ED Follow-Up and Care Transition Center:

You will be contacted by the Emergency Department (ED) Follow-up and Care Transitions Center. We want to help you with anything you may need. We will gladly help you review your discharge instructions, assist with doctor appointments or get medications you need. If you have any questions or concerns about your ED visit, please call the ED Follow-up and Care Transition Center. They can be reached at (212) 263-6695 between 9:00am-7:00pm.

Virtual Urgent Care:

Adults and children (age 5 and older) can video chat with a care provider while at home, work, or on the go. This service is for patients who have minor medical conditions. It is not for emergencies. Virtual urgent care doctors treat a variety of minor complaints, including cough, sore throat, flu-like symptoms and more. Visit https://nyulangone.org/locations/virtual-urgent-care to learn more.

Urgent Care:

If you are experiencing an injury or illness and are unable to get an appointment with your doctor, NYU Langone has several urgent care options to ensure you get the care you need as quickly and conveniently as possible. This service is for patients who have minor medical conditions. It is not for emergencies. Our doctors are available for extended hours during the week, as well as on the weekend. They are able to perform minor procedures, bloodwork, and imaging services. Visit https://nyulangone.org/locations/urgent-care to learn more.

Important Notice To All Patients

The examination and treatment(s) you received in our ED have been delivered on an emergency basis. Sometimes, these treatments are not a substitute for complete and ongoing evaluation and medical treatment. It is vital that you arrange for follow-up care with your physician/clinic you were referred to. Report any new or remaining problems at that time because it is difficult to recognize and treat all types of injury or disease in a single ED visit.

If your symptoms continue, get worse or change, you may need more immediate attention. You may need to see your physician or the referral physician. If they are unavailable or if you feel you cannot wait to be seen, return to the ED Our department is always open and available if you need to come back.

Please ensure that the contact information provided upon Emergency Department registration is accurate in case the need should arise for us to contact you. For information and further instructions on obtaining your medical records, including results and final radiology reports, access your MyChart account.

Radiology Disclaimer

If you had an X-ray, CAT scan, Ultrasound or MRI today, the Emergency Department (ED) interpretation may have been a preliminary reading. A radiology specialist will formally review the exam by the next day following your ED visit. If there is a discrepancy or a change from today's Emergency department reading, you will be notified. In addition, due to the

Access to Clinical Notes and Test Results

At NYU Langone Health, we believe that sharing information supports patients taking an active role in their health. In support of this, clinical notes and test results are made available to patients in MyChart and the NYU Langone Health App, as soon as they are available. This is in accordance with the 21st Century Cures Act, which is intended to give patients and their healthcare providers secure access to health information. (www.healthit.gov/curesrule)

This means that a patient may see test results before their health care provider does. If you do access your test results right away, please keep in mind that some results may be hard to interpret without guidance from a health care professional. All results will be reviewed by members of your care team. They will continue to follow-up with you as they have done in the past.

If you feel that any of the information in this summary is inaccurate, please talk with your healthcare provider.

Information About Medication Safety

It is important to keep an updated record of the medications you are taking, and to bring this updated list of medications every time you visit your Health Care Provider and when you come to the hospital. We want to help you in managing your medications safely after your visit or discharge. This includes the potential side effects of your medications. If you have any questions regarding the medications you are taking, please speak to your Health Care Provider or Pharmacist.

Finding a Physician Within NYU Langone Health

As one of the nation's premier academic medical centers, NYU Langone Health is devoted to excellence in patient care, education, and research. We are proud that our care team includes leading specialists for every condition.

Should you need assistance finding a physician or service, please visit us on our website at https://nyulangone.org/

To reach us by phone:

Please come back to the Emergency Department if:

- · You do not feel better
- · You feel worse
- · You have any other medical concerns

If you do not have a primary care physician, please call: 855-314-2978 for a referral.

Additional NYU Langone Health Resources & Care Options

ED Follow-Up and Care Transition Center:

You will be contacted by the Emergency Department (ED) Follow-up and Care Transitions Center. We want to help you with anything you may need. We will gladly help you review your discharge instructions, assist with doctor appointments or get medications you need. If you have any questions or concerns about your ED visit, please call the ED Follow-up and Care Transition Center. They can be reached at (212) 263-6695 between 9:00am-7:00pm.

Virtual Urgent Care:

Adults and children (age 5 and older) can video chat with a care provider while at home, work, or on the go. This service is for patients who have minor medical conditions. It is not for emergencies. Virtual urgent care doctors treat

a variety of minor complaints, including cough, sore throat, flu-like symptoms and more. Visit https://nyulangone.org/locations/virtual-urgent-care to learn more.

Urgent Care:

If you are experiencing an injury or illness and are unable to get an appointment with your doctor, NYU Langone has several urgent care options to ensure you get the care you need as quickly and conveniently as possible. This service is for patients who have minor medical conditions. It is not for emergencies. Our doctors are available for extended hours during the week, as well as on the weekend. They are able to perform minor procedures, extended hours during the services. Visit https://nyulangone.org/locations/urgent-care to learn more.

Important Notice To All Patients

The examination and treatment(s) you received in our ED have been delivered on an emergency basis. Sometimes, these treatments are not a substitute for complete and ongoing evaluation and medical treatment. It is vital that you arrange for follow-up care with your physician/clinic you were referred to. Report any new or remaining problems at that time because it is difficult to recognize and treat all types of injury or disease in a single ED visit.

If your symptoms continue, get worse or change, you may need more immediate attention. You may need to see your physician or the referral physician. If they are unavailable or if you feel you cannot wait to be seen, return to the ED Our department is always open and available if you need to come back.

Please ensure that the contact information provided upon Emergency Department registration is accurate in case the need should arise for us to contact you. For information and further instructions on obtaining your medical records, including results and final radiology reports, access your MyChart account.

Radiology Disclaimer

If you had an X-ray, CAT scan, Ultrasound or MRI today, the Emergency Department (ED) interpretation may have been a preliminary reading. A radiology specialist will formally review the exam by the next day following your ED visit. If there is a discrepancy or a change from today's Emergency department reading, you will be notified. In addition, due to the complexities of radiologic examinations, the radiologist's final report may note incidental findings that were not noted during your ED visit. Incidental findings are findings that are discovered, which do not necessarily have clinical significance but may require further evaluation. We suggest you view your images and final radiology report by accessing your MyChart account.

General Emergency Department Discharge Instructions

We appreciate that you chose us as your healthcare provider.

This form provides you with information about the care you received in our Emergency Department and instructions about caring for yourself after you leave the Emergency Department. If you have further questions concerning this visit please call us at the included phone number above on this form. Please keep this form and bring it with you should you need additional treatment. If your symptoms become worse or you are not improving as expected and you are unable to reach your usual health care provider, or get to your follow-up appointment, you should return to the Emergency Department immediately. We are available 24 hours a day.

It is important that you keep appointments that may have been scheduled. If you are unable to make an appointment, please call the corresponding clinic to reschedule your appointment.

Instructions

Your medications have changed

START taking: amoxicillin-clavulanate (AUGMENTIN) metFORMIN (GLUCOPHAGE) sodium chloride (OCEAN)

CHANGE how you take: glipiZIDE (GLUCOTROL)

STOP taking:
acetaminophen 325 MG tablet (Tylenol)

dextromethorphan-guaiFENesin 10-100 MG/5ML syrup (ROBITUSSIN-DM)
ibuprofen 600 MG tablet (MOTRIN)

Review your updated medication list below.

Home Medication Information

The list of your home medications is based on the information provided by you (or your representative) during your Emergency Department visit, and/or the information contained in your medical record. In addition, some of your home medications may have been changed by the Emergency Department provider who evaluated you. These changes may

- · New medications
- · Changes to the amount or how often you take a medication
- · Discontinuation of a medication

Please review the information below carefully. Continue all your current medications as you are presently taking, with the exception of the following changes below. If you have questions about any of the medications or the changes, please contact your Primary Care Physician, the Provider who prescribed the medication, or your Pharmacist.

Changes to Your Medication List

START taking these medications

START	amoxicillin-clavulanate 875-125 mg tablet Commonly known as: AUGMENTIN	Take 1 tablet by mouth every 12 (twelve) hours for 5 days.
START	metFORMIN 1000 MG tablet Commonly known as: GLUCOPHAGE	Take 1 tablet (1,000 mg total) by mouth 2 (two) times a day with meals.
START	sodium chloride 0.65 % nasal spray Commonly known as: OCEAN	Administer 2 sprays into each nostril 4 (four) times a day.

CHANGE how you take these medications

Take 1 tablet (5 mg total) by mouth every morning before breakfast.

What changed: Another medication with the same name was removed. Continue taking this medication, and follow the directions you see here.

CONTINUE taking these medications

albuterol 108 (90 Base) MCG/ACT inhaler	Inhale 2 puffs every 4-6 (four to six) hours as needed for wheezing.
Alcohol Prep Pads	1 Pad by Other route see administration instructions.
Blood Glucose Monitor System w/Device Kit	1 Device by Other route see administration instructions.
BLOOD GLUCOSE TEST STRIPS Strp	1 Box by Other route see administration instructions.

Case 1:24-cv-05255-PKC-CLP Document 1 Changes to Your Medication List (continued) 9 CONTINUE taking these medications (continued)

Filed 05/13/24 Page 29 of 92 PageID #:

cetirizine 10 MG tablet Commonly known as: ZyrTEC	Take 1 tablet (10 mg total) by mouth daily as needed for allergies (for nasal congestion).		
Dulera 200-5 MCG/ACT inhaler Generic drug: mometasone-formoterol	Inhale 2 puffs 2 (two) times a day.		
Lancets Misc	1 Box by Other route see administration instructions.		
Pen Needles 3/16" 31G X 5 MM Misc	1 Box by Other route see administration instructions.		

◆ You might also be taking other medications not listed above. If you have questions about any of your other medications, talk to the person who prescribed them or your Primary Care Provider.

STOP taking these medications

acetaminophen 325 MG tablet Commonly known as: Tylenol

dextromethorphan-guaiFENesin 10-100 MG/5ML syrup Commonly known as: ROBITUSSIN-DM

ibuprofen 600 MG tablet Commonly known as: MOTRIN

Stay engaged with your health with **MyChart**, a free, convenient, secure online tool. With MyChart you can...Message your doctor's office... Request refills... See test results... See your visit summaries and upcoming appointments... Pay your bill.... Request financial assistance... And much more...

To sign up for MyChart, go to http://mychart.nychealthandhospitals.org or scan the QR code below using your smartphone's camera, click "Sign Up Now" and enter your personal activation code: Z6XP6-PX6ZS

Expires: 7/5/2024 4:53 AM

After you sign up, please update your MyChart **Profile** with the most up-to-date **Contact** and **Insurance** information so we can reach you and help you with your bill:

- 1. Contact Information: Go to the Profile tab, then click Personal Information, then click Contact Information.
- 2. **Insurance Information**: Go to the **Billing** tab, then click **Insurance Summary**, then click **Add a Coverage**.
- Insurance Enrollment Assistance: For assistance with insurance enrollment, go to the Billing tab, then click Financial Assistance. One of our staff will reach out to you to help you enroll in insurance coverage or financial assistance, if eligible.

Additional information:

If you have questions, you can go to: https://epicmychart.nychhc.org/help to contact our MyChart staff. Remember, for emergencies, always call 911 – do not use MyChart.

Your Treatment Plan

The treatment you have received during your visit was provided on an **emergency basis only** and is not meant to be a replacement for ongoing medical care. The information provided in these discharge instructions, **including follow up information**, should be followed in order to ensure proper treatment of your condition.

NYC Health and Hospital Virtual ExpressCare

Introducing Virtual ExpressCare: Get Urgent Care with Just One Click

Virtual ExpressCare is an easy way to see a doctor about health issues that are not emergencies. You can see one of our doctors in less than 5 minutes from your home. We have interpretation services in over 200 languages.

Go to Expresscare.nyc to start a video visit from your smartphone or computer. You do not need to download any applications. A NYC Health + Hospitals support hero will help you register, and a doctor will see you.

Get high quality, low-cost urgent care from anywhere! ExpressCare takes most insurance plans. If you do not have health insurance, we can help you enroll. If you do not qualify or cannot afford health insurance, we can help you get NYC Care, our health care access program.

Visit Expresscare.nyc or call (631) 397-2273 or point your smartphone camera at the QR code to talk to a doctor now.

COVID-19 Message

For the latest information from NYC Health + Hospitals about COVID-19, including testing sites, vaccines, care & treatment, and more resources go to www.nychealthandhospitals.org

If you have a fever, cough, sore throat, or shortness of breath that is unrelated to an existing condition, or have questions about COVID-19 testing, please call 1-844-NYC-4NYC (1-844-692-4692).

The updated booster vaccine is now available! To make an appointment or for information about vaccines, please call 1-877-VAX-4NYC (1-877-829-4692)

Thank you for being a patient at KINGS COUNTY ADULT ED today. If your prescription was sent to the internal hospital pharmacy, please keep this paper for your records and provide to the pharmacist when you arrive. Thank you again!

Patient EMPI: 24816168 - For Internal Pharmacy Use Only

Acknowledgement of Discharge Instructions

• I understand the treatment received during this visit was provided on an **emergency basis only** and is not meant to be a replacement for ongoing medical care. I also understand the information provided in these discharge instructions, **including follow up information**, should be followed in order to ensure proper ongoing treatment of my complaint/diagosis.

A member of the Emergency Department staff has reviewed the discharge instructions provided to me	and has
answered any questions I may have had regarding these instructions.

- · Leaking clear fluid from the nose or ear
- Seizures

General care

- · If you were prescribed medicines for pain, use them as directed. Note: Do not take other medicines for pain without talking to your provider first.
- To help reduce swelling and pain, apply a cold source to the injured area for up to 20 minutes at a time. Do this as often as directed. Use a cold pack or bag of ice wrapped in a thin towel. Never apply a cold source directly to the skin.
- If you have cuts or scrapes as a result of your head injury, care for them as directed.
- For the next 24 hours (or longer, if instructed):
 - Do not drink alcohol, use sedatives or other medicines that make you sleepy.
 - · Do not drive or operate machinery.
 - · Do not do anything strenuous, such as heavy lifting or straining.
 - Do not return to sports or other activities that could result in another head injury.
 - Limit tasks that require concentration. This includes reading, using a smartphone or computer, watching TV, and playing video games.
 - · Don't return to sports or other activities that could result in another head injury until approved by your healthcare provider.

Follow-up care

Follow up with your healthcare provider, or as directed. If imaging tests were done, they will be reviewed by a doctor. You will be told the results and any new findings that may affect your care.

When to seek medical advice

Call your healthcare provider right away if any of these occur:

- Pain does not get better or worsens
- · New or increased swelling or bruising
- Fever of 100.4°F (38°C) or higher, or as directed by your provider
- · Increased redness, warmth, drainage or bleeding from the injured area
- · Fluid drainage or bleeding from the nose or ears
- · Any depression or bony abnormality in the injured area
- Persistent confusion or lethargy
- · Personality changes
- · Bruising behind the ears or bruising around the eyes

IMPRESSION:

No acute intracranial hemorrhage or any acute intracranial process.

The examination was reviewed at 4/13/2024 4:15 PM by Attending Rajan ImD.

Access to Clinical Notes and Test Results

At NYU Langone Health, we believe that sharing information supports patients taking an active role in their health. In support of this, clinical notes and test results are made available to patients in MyChart and the NYU Langone Health App, as soon as they are available. This is in accordance with the 21st Century Cures Act, which is intended to give patients and their healthcare providers secure access to health information. (www.healthit.gov/curesrule)

This means that a patient may see test results before their health care provider does. If you do access your test results right away, please keep in mind that some results may be hard to interpret without guidance from a health care professional. All results will be reviewed by members of your care team. They will continue to follow-up with you as they have done in the past.

If you feel that any of the information in this summary is inaccurate, please talk with your healthcare provider.

Information About Medication Safety

It is important to keep an updated record of the medications you are taking, and to bring this updated list of medications every time you visit your Health Care Provider and when you come to the hospital. We want to help you in managing your medications safely after your visit or discharge. This includes the potential side effects of your medications. If you have any questions regarding the medications you are taking, please speak to your Health Care Provider or Pharmacist.

Finding a Physician Within NYU Langone Health

As one of the nation's premier academic medical centers, NYU Langone Health is devoted to excellence in patient care, education, and research. We are proud that our care team includes leading specialists for every condition.

Should you need assistance finding a physician or service, please visit us on our website at https://nyulangone.org/doctors.

To reach us by phone:

NYU Langone Physician Referral Services – (855) 314-2978 NYU Langone Orthopedic Hospital – (888) 453-3627 Family Health Centers at NYU Langone – (718) 630-7942

Additional resources include:

If you or someone you know is struggling or in crisis, help is available. Call or text 988 or chat $\underline{988lifeline.org}$ NYC Suicide Hotline – (888) 692-9355

Have questions about your bills?

Our physician and hospital customer service representatives are available to answer any billing questions: https://nyulangone.org/insurance-billing-financial-assistance

Physician Billing: 1 - 877 - 648 - 2964 Hospital Billing: 1 - 800 - 237 - 6977

NYU Financial Counseling Service

Patient Financial Counselors are available to discuss any outstanding financial responsibilities not covered by insurance. Financial Counselors can assist you in applying for Government-sponsored programs or NYU Hospitals Center's Financial Assistance program.

Location: Skirball Institute lobby, across from the cashier, Tisch Hospital Hours: Monday - Friday, 9:00 PM

Toll Free Telephone: 1-866-486-987

Please come back to the Emergency Department if:

- You do not feel better
- You feel worse
- You have any other medical concerns

If you do not have a primary care physician, please call: 855-314-2978 for a referral.

Additional NYU Langone Health Resources & Care Options

ED Follow-Up and Care Transition Center:

You will be contacted by the Emergency Department (ED) Follow-up and Care Transitions Center. We want to help you with anything you may need. We will gladly help you review your discharge instructions, assist with doctor appointments or get medications you need. If you have any questions or concerns about your ED visit, please call the ED Follow-up and Care Transition Center. They can be reached at (212) 263-6695 between 9:00am-7:00pm.

Virtual Urgent Care:

Adults and children (age 5 and older) can video chat with a care provider while at home, work, or on the go. This service is for patients who have minor medical conditions. It is not for emergencies. Virtual urgent care doctors treat a variety of minor complaints, including cough, sore throat, flu-like symptoms and more. Visit https://
nyulangone.org/locations/virtual-urgent-care to learn more.

Urgent Care:

If you are experiencing an injury or illness and are unable to get an appointment with your doctor, NYU Langone has several urgent care options to ensure you get the care you need as quickly and conveniently as possible. This service is for patients who have minor medical conditions. It is not for emergencies. Our doctors are available for extended hours during the week, as well as on the weekend. They are able to perform minor procedures, bloodwork, and imaging services. Visit https://nyulangone.org/locations/urgent-care to learn more.

Important Notice To All Patients

The examination and treatment(s) you received in our ED have been delivered on an emergency basis. Sometimes, these treatments are not a substitute for complete and ongoing evaluation and medical treatment. It is vital that you arrange for follow-up care with your physician/clinic you were referred to. Report any new or remaining problems at that time because it is difficult to recognize and treat all types of injury or disease in a single ED visit.

If your symptoms continue, get worse or change, you may need more immediate attention. You may need to see your physician or the referral physician. If they are unavailable or if you feel you cannot wait to be seen, return to the ED Our department is always open and available if you need to come back.

Please ensure that the contact information provided upon Emergency Department registration is accurate in case the need should arise for us to contact you. For information and further instructions on obtaining your medical records, including results and final radiology reports, access your MyChart account.

Radiology Disclaimer

If you had an X-ray, CAT scan, Ultrasound or MRI today, the Emergency Department (ED) interpretation may have been a preliminary reading. A radiology specialist will formally review the exam by the next day following your ED visit. If there is a discrepancy or a change from today's Emergency department reading, you will be notified. In addition, due to the complexities of radiologic examinations, the radiologist's final report may note incidental findings that were not noted during your ED visit. Incidental findings are findings that are discovered, which do not necessarily have clinical significance but may require further evaluation. We suggest you view your images and final radiology report by accessing your MyChart account.

- For technical support, please call 1-866-262-6458.

Information and Instructions About My Care

Headaches, Self-Care for (English)

Self-Care for Headaches

Most headaches are not serious and can be relieved with self-care. Some headaches may be a sign of another health problem like eye trouble or high blood pressure. To find the best treatment, learn what kind of headaches you get. For tension headaches, self-care will usually help. To treat migraines, ask your healthcare provider for advice. It is also possible to get both tension and migraine headaches. Self-care involves relieving the pain and avoiding headache "triggers" if you can.

Ways to reduce pain and tension

Try these steps:

- · Apply a cold compress or ice pack to the pain site
- · Drink fluids. If nausea makes it hard to drink, try sucking on ice
- · Rest. Protect yourself from bright light and loud noises
- · Calm your emotions by imagining a peaceful scene
- Massage tight neck, shoulder and head muscles
- To relax muscles, soak in a hot bath or use a hot shower

Use medicines

- · Aspirin or aspirin substitutes, such as ibuprofen (Motrin) and acetaminophen (Tylenol), can relieve headache.
- Remember: Never give aspirin to anyone 18 years old or younger because of the risk of developing Reyes syndrome.
- · Use pain medicines only when necessary.

Track your headaches

Keeping a headache diary can help you and your healthcare provider identify what is causing your headaches:

- · Note when each headache happens.
- Identify your activities and the foods you've eaten 6 to 8 hours before the headache began.
- · Look for any trends or "triggers."

Signs of tension headache

These may include:

- · Dull pain or feeling of pressure in a tight band around your head
- Pain in your neck or shoulders
- · Headache without a definite beginning or end
- · Headache after an activity such as driving or working on a computer

Signs of migraine

These may include:

- · Throbbing pain on one or both sides of your head
- · Nausea or vomiting
- · Extreme sensitivity to light, sound, and smells
- · Bright spots, flashes, or other visual changes
- · Pain or nausea so severe that you cannot continue your daily activities

Call your healthcare provider

If you have any of the following symptoms, contact your healthcare provider:

- A headache that lingers after a recent injury or bump to the head.
- A fever with a stiff neck or pain when you bend your head toward your chest.
- A headache for longer than 3 days.
- · Frequent headaches, especially in the morning.

Call 911 right away

- Headaches with seizures
- Seek immediate medical attention if you have a headache that you would call "the worst headache
 you have ever had."
- A headache along with slurred speech, changes in your vision, or numbness or weakness in your arms or legs.

NYC Health and Hospital Virtual ExpressCare

Introducing Virtual ExpressCare: Get Urgent Care with Just One Click

Virtual ExpressCare is an easy way to see a doctor about health issues that are not emergencies. You can see one of our doctors in less than 5 minutes from your home. We have interpretation services in over 200 languages.

Go to Expresscare.nyc to start a video visit from your smartphone or computer. You do not need to download any applications. A NYC Health + Hospitals support hero will help you register, and a doctor will see you.

Get high quality, low-cost urgent care from anywhere! ExpressCare takes most insurance plans. If you do not have health insurance, we can help you enroll. If you do not qualify or cannot afford health insurance, we can help you get NYC Care, our health care access program.

Visit Expresscare.nyc or call (631) 397-2273 or point your smartphone camera at the QR code to talk to a doctor now.

COVID-19 Message

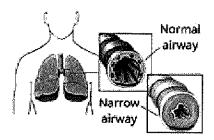

For the latest information from NYC Health + Hospitals about COVID-19, including testing sites, vaccines, care & treatment, and more resources go to www.nychealthandhospitals.org

If you have a fever, cough, sore throat, or shortness of breath that is unrelated to an existing condition, or have questions about COVID-19 testing, please call 1-844-NYC-4NYC (1-844-692-4692).

The updated booster vaccine is now available! To make an appointment or for information about vaccines, please call 1-877-VAX-4NYC (1-877-829-4692)

🔊 Attached Information

Asthma, Adult

Asthma is a condition that causes swelling and narrowing of the airways. These are the passages that lead from the nose and mouth down into the lungs. When asthma symptoms get worse it is called an asthma attack or flare. This can make it hard to breathe. Asthma flares can range from minor to life-threatening. There is no cure for asthma, but medicines and lifestyle changes can help to control it.

What are the causes?

It is not known exactly what causes asthma, but certain things can cause asthma symptoms to get worse (triggers).

What can trigger an asthma attack?

- Cigarette smoke.
- Mold.
- Dust.
- · Your pet's skin flakes (dander).
- · Cockroaches.
- Pollen.
- Air pollution (like household cleaners, wood smoke, smog, or chemical odors).

What are the signs or symptoms?

- Trouble breathing (shortness of breath).
- Coughing.
- Making high-pitched whistling sounds when you breathe, most often when you breathe out (wheezing).
- · Chest tightness.
- Tiredness with little activity.
- Poor exercise tolerance.

How is this treated?

- Controller medicines that help prevent asthma symptoms.
- Fast-acting reliever or rescue medicines. These give short-term relief of asthma symptoms.
- Allergy medicines if your attacks are brought on by allergens.
- Medicines to help control the body's defense (immune) system.
- Staying away from the things that cause asthma attacks.

Follow these instructions at home:

Avoiding triggers in your home

- · Do not allow anyone to smoke in your home.
- · Limit use of fireplaces and wood stoves.
- · Get rid of pests (such as roaches and mice) and their droppings.
- Keep your home clean.
 - · Clean your floors. Dust regularly. Use cleaning products that do not smell.
 - · Wash bed sheets and blankets every week in hot water. Dry them in a dryer.
 - · Have someone vacuum when you are not home.
 - Change your heating and air conditioning filters often.
- Use blankets that are made of polyester or cotton.

General instructions

- Take over-the-counter and prescription medicines only as told by your doctor.
- Do not smoke or use any products that contain nicotine or tobacco. If you need help quitting, ask your doctor.
 - · Stay away from secondhand smoke.
- · Avoid doing things outdoors when allergen counts are high and when air quality is low.
- · Warm up before you exercise. Take time to cool down after exercise.
- Use a peak flow meter as told by your doctor. A peak flow meter is a tool that measures how well your lungs are working.
 - · Keep track of the peak flow meter's readings. Write them down.
- Follow your asthma action plan. This is a written plan for taking care of your asthma and treating your attacks.
- Make sure you get all the shots (*vaccines*) that your doctor recommends. Ask your doctor about a flu shot and a pneumonia shot.
- · Keep all follow-up visits.

Contact a doctor if:

- · You have wheezing, shortness of breath, or a cough even while taking medicine to prevent attacks.
- The mucus you cough up (sputum) is thicker than usual.
- The mucus you cough up changes from clear or white to yellow, green, gray, or is bloody.
- You have problems from the medicine you are taking, such as:
 - A rash.
 - Itching.
 - Swelling.
 - Trouble breathing.
- You need reliever medicines more than 2-3 times a week.
- Your peak flow reading is still at 50–79% of your personal best after following the action plan for 1 hour.
- · You have a fever.

Get help right away if:

You seem to be worse and are not responding to medicine during an asthma attack.

- · You are short of breath even at rest.
- · You get short of breath when doing very little activity.
- · You have trouble eating, drinking, or talking.
- You have chest pain or tightness.
- · You have a fast heartbeat.
- · Your lips or fingernails start to turn blue.
- · You are light-headed or dizzy, or you faint.
- Your peak flow is less than 50% of your personal best.
- · You feel too tired to breathe normally.

These symptoms may be an emergency. Get help right away. Call 911.

- Do not wait to see if the symptoms will go away.
- · Do not drive yourself to the hospital.

Summary

- Asthma is a long-term (*chronic*) condition in which the airways get tight and narrow. An asthma attack can make it hard to breathe.
- · Asthma cannot be cured, but medicines and lifestyle changes can help control it.
- Make sure you understand how to avoid triggers and how and when to use your medicines.
- Avoid things that can cause allergy symptoms (*allergens*). These include animal skin flakes (*dander*) and pollen from trees or grass.
- Avoid things that pollute the air. These may include household cleaners, wood smoke, smog, or chemical odors.

This information is not intended to replace advice given to you by your health care provider. Make sure you discuss any questions you have with your health care provider.

MyChart at NYU Langone

- Sign up for NYU Langone Health MyChart to stay connected to your care anytime and anywhere.
- · You can schedule appointments, view test results, request prescription refills, send secure messages to your providers, and more.
- To enroll, download the NYU Langone Health app and select "Activate MyChart Account" on the login screen. Or you can visit https://mychart.nyulmc.org_and select "Sign Up Now."
- For technical support, please call 1-866-262-6458.

Stay engaged with your health with **MyChart**, a free, convenient, secure online tool. With MyChart you can...Message your doctor's office... Request refills... See test results... See your visit summaries and upcoming appointments... Pay your bill.... Request financial assistance... And much more...

To sign up for MyChart, go to http://mychart.nychealthandhospitals.org or scan the QR code below using your smartphone's camera, click "Sign Up Now" and enter your personal activation code: 4KK4R-S5SSK

Expires: 4/4/2024 2:24 PM

After you sign up, please update your MyChart **Profile** with the most up-to-date **Contact** and **Insurance** information so we can reach you and help you with your bill:

- 1. Contact Information: Go to the Profile tab, then click Personal Information, then click Contact Information.
- 2. **Insurance Information**: Go to the **Billing** tab, then click **Insurance Summary**, then click **Add a Coverage**.
- Insurance Enrollment Assistance: For assistance with insurance enrollment, go to the Billing tab, then click Financial Assistance. One of our staff will reach out to you to help you enroll in insurance coverage or financial assistance, if eligible.

Additional information:

If you have questions, you can go to: https://epicmychart.nychhc.org/help to contact our MyChart staff. Remember, for emergencies, always call 911 – do not use MyChart.

Your Treatment Plan

The treatment you have received during your visit was provided on an **emergency basis only** and is not meant to be a replacement for ongoing medical care. The information provided in these discharge instructions, **including follow up information**, should be followed in order to ensure proper treatment of your condition.

Viral Syndrome (Adult)

A viral illness may cause a number of symptoms. The symptoms depend on the part of the body that the virus affects. If it settles in your nose, throat, and lungs, it may cause cough, sore throat, congestion, and sometimes headache. If it settles in your stomach and intestinal tract, it may cause vomiting and diarrhea. Sometimes it causes vague symptoms like "aching all over," feeling tired, loss of appetite, or fever.

A viral illness usually lasts 1 to 2 weeks, but sometimes it lasts longer. In some cases, a more serious infection can look like a viral syndrome in the first few days of the illness. You may need another exam and additional tests to know the difference. Watch for the warning signs listed below.

Home care

Follow these guidelines for taking care of yourself at home:

- If symptoms are severe, rest at home for the first 2 to 3 days.
- · Stay away from cigarette smoke both your smoke and the smoke from others.
- · You may use over-the-counter acetaminophen or ibuprofen for fever, muscle aching, and headache, unless another medicine was prescribed for this. If you have chronic liver or kidney disease or ever had a stomach ulcer or GI bleeding, talk with your doctor before using these medicines. No one who is younger than 18 and ill with a fever should take aspirin. It may cause severe disease or death.
- · Your appetite may be poor, so a light diet is fine. Avoid dehydration by drinking 8 to 12 8-ounce glasses of fluids each day. This may include water; orange juice; lemonade; apple, grape, and cranberry juice; clear fruit drinks; electrolyte replacement and sports drinks; and decaffeinated teas and coffee. If you have been diagnosed with a kidney disease, ask your doctor how much and what types of fluids you should drink to prevent dehydration. If you have kidney disease, drinking too much fluid can cause it build up in the your body and be dangerous to your
- · Over-the-counter remedies won't shorten the length of the illness but may be helpful for cough, sore throat; and nasal and sinus congestion. Don't use decongestants if you have high blood pressure.

Follow-up care

Follow up with your healthcare provider if you do not improve over the next week.

Call 911

Call 911 if any of the following occur:

- Convulsion
- · Feeling weak, dizzy, or like you are going to faint
- · Chest pain, shortness of breath, wheezing, or difficulty breathing

When to seek medical advice

Call your healthcare provider right away if any of these occur:

- · Cough with lots of colored sputum (mucus) or blood in your sputum
- · Chest pain, shortness of breath, wheezing, or difficulty breathing
- · Severe headache; face, neck, or ear pain
- Severe, constant pain in the lower right side of your belly (abdominal)

- Continued vomiting (can't keep liquids down)
- Feeling weak, dizzy, or like you are going to faint Frequent diarrhea (more than 5 times a day); blood (red or black color) or mucus in diarrhea

- Fever of 100.4°F (38°C) or higher, or as directed by your healthcare provider

No acute pulmonary disease.

Access to Clinical Notes and Test Results

At NYU Langone Health, we believe that sharing information supports patients taking an active role in their health. In support of this, clinical notes and test results are made available to patients in MyChart and the NYU Langone Health App, as soon as they are available. This is in accordance with the 21st Century Cures Act, which is intended to give patients and their healthcare providers secure access to health information. (www.healthit.gov/curesrule)

This means that a patient may see test results before their health care provider does. If you do access your test results right away, please keep in mind that some results may be hard to interpret without guidance from a health care professional. All results will be reviewed by members of your care team. They will continue to follow-up with you as they have done in the past.

If you feel that any of the information in this summary is inaccurate, please talk with your healthcare provider.

Information About Medication Safety

It is important to keep an updated record of the medications you are taking, and to bring this updated list of medications every time you visit your Health Care Provider and when you come to the hospital. We want to help you in managing your medications safely after your visit or discharge. This includes the potential side effects of your medications. If you have any questions regarding the medications you are taking, please speak to your Health Care Provider or Pharmacist,

Finding a Physician Within NYU Langone Health

As one of the nation's premier academic medical centers, NYU Langone Health is devoted to excellence in patient care, education, and research. We are proud that our care team includes leading specialists for every condition.

Should you need assistance finding a physician or service, please visit us on our website at https://nyulangone.org/ <u>doctors.</u>

To reach us by phone:

NYU Langone Physician Referral Services – (855) 314-2978 NYU Langone Orthopedic Hospital – (888) 453-3627 Family Health Centers at NYU Langone – (718) 630-7942

Virtual Urgent Care:

Adults and children (age 5 and older) can video chat with a care provider while at home, work, or on the go. This service is for patients who have minor medical conditions. It is not for emergencies. Virtual urgent care doctors treat a variety of minor complaints, including cough, sore throat, flu-like symptoms and more. Visit https://. As variety of minor complaints, including cough, sore throat, flu-like symptoms and more. Visit https://.

Urgent Care:

If you are experiencing an injury or illness and are unable to get an appointment with your doctor, NYU Langone has several urgent care options to ensure you get the care you need as quickly and conveniently as possible. This service is for patients who have minor medical conditions. It is not for emergencies. Our doctors are available for extended hours during the week, as well as on the weekend. They are able to perform minor procedures, bloodwork, and imaging services. Visit https://nyulangone.org/locations/urgent-care to learn more.

Important Notice To All Patients

The examination and treatment(s) you received in our ED have been delivered on an emergency basis. Sometimes, these treatments are not a substitute for complete and ongoing evaluation and medical treatment. It is vital that you arrange for follow-up care with your physician/clinic you were referred to. Report any new or remaining problems at that time because it is difficult to recognize and treat all types of injury or disease in a single ED visit.

If your symptoms continue, get worse or change, you may need more immediate attention. You may need to see your physician or the referral physician. If they are unavailable or if you feel you cannot wait to be seen, return to the ED Our department is always open and available if you need to come back.

Please ensure that the contact information provided upon Emergency Department registration is accurate in case the need should arise for us to contact you. For information and further instructions on obtaining your medical records, including results and final radiology reports, access your MyChart account.

Radiology Disclaimer

If you had an X-ray, CAT scan, Ultrasound or MRI today, the Emergency Department (ED) interpretation may have been a preliminary reading. A radiology specialist will formally review the exam by the next day following your ED visit. If there is a discrepancy or a change from today's Emergency department reading, you will be notified. In addition, due to the

Filed 05/13/24 Page 72 of 92 PageID #: Case 1:24-cv-05255-PKC-CLP Document 1

complexities of radiologic examinations, the radiologist's final report may note incidental findings that were not noted during your ED visit. Incidental findings are findings that are discovered, which do not necessarily have clinical significance but may require further evaluation. We suggest you view your images and final radiology report by accessing your MyChart account.

NYPD Property Clerk Invoice

PD 521-141(Rev.12/18)

NOTICE TO PERSONS FROM WHOM PROPERTY HAS BEEN REMOVED BY THE POLICE DEPARTMENT

The person from whose possession property was taken should retain and safeguard the invoice. The New York City Police Department can change the invoice Category without further notice. In order to obtain the return of property, the claimant or a representative authorized by a notarized letter to claim the property will be required to submit, In person or by mail, the Invoice and proper identification (one (1) government issued photo identification plus at least one (1) non-photo identification) to the office of the Property Clerk. A claimant demanding the return of property other than Arrest Evidence, DNA Evidence or Forfeiture does not require a District Attorney's Release and may make such demand whether or not criminal proceedings have been instituted and, if instituted, whether or not such proceedings have been

ARREST EVIDENCE/DNA EVIDENCE/FORFEITURE

The property may be disposed of by the Property Clerk according to law, unless the claimant demanding the property no later than 120 days after the termination of criminal proceedings. A claimant demanding the return of arrest evidence/DNA evidence/forfeiture from the Property Clerk should obtain, before making a demand, either a District Attorney's Release or a supervising District Attorney's statement refusing to grant a release. Presentation of either or both of these documents to the Property Clerk is NOT required for making a timely demand. If a demand for the property is made without a District Attorney's Release or a supervising District Attorney's statement, the claimant shall have 270 days from the date of demand to obtain a District Attorney's Release or a Supervising District Attorney's statement refusing to grant a release. If a release or a statement refusing to grant a release is not provided to the Property clerk within 270 days of the date of demand, the property may be disposed of according to law. If a claimant timely provides the Property clerk with a District Attorney's statement refusing to grant a release, the claimant must, when the District Attorney no longer needs the property, obtain and submit a District Attorney's Release to the Police Department, Forfeiture property may additionally require a Civil Enforcement Release prior to release.

INVESTIGATORY/DNA INVESTIGATORY

investigatory property is disposed of after one (1) year, unless otherwise requested by the investigating officer.

DECEDENT'S PROPERTY

LETTERS TESTAMENTARY or LETTERS OF ADMINISTRATION obtained from the Surrogate Court of the decedent's county of residence are required for release.

FOUND PROPERTY

Pursuant to law, found property will be held for the following periods of time (unless sooner delivered to owner):

- a. Property having a value of less than \$100 -- 3 months
- b. Property having a value of \$100 but less than \$500 6 months
- c. Property having a value of \$500 but less than \$5000 -- 1 year
- d. Property having a value of \$5000 or more -- 3 years

SAFEKEEPING

Property held for Safekeeping must be claimed within 120 days from the date it was invoiced. After 120 days, property will be disposed of as per applicable NYC Law. All firearms, rifles, and shotguns, invoiced for safekeeping must be reclaimed by the owner within one (1) year of the date of invoice. After the expiration of one (1) year, the firearm, rifle, or shotgun will be disposed of by the Property Clerk pursuant to law, without further notice.

PEDDLER PROPERTY

Peddler property that is deemed trademark counterfeit, and classified found/abandoned property will be destroyed on intake. All other Peddler Property is held for a period of 90 days. A claimant that demands the return of his/her peddler property must obtain a letter from the NYPD Law department stating the property can be released and:

- a. A claimant that was issued an Environmental Control Board summons must obtain a decision and order sheet from ECB,
- b. A claimant that was issued a Criminal Court summons or was arrested must obtain a court disposition sheet in order to obtain his/her peddler property.

Please bring this receipt with you when you are notified to appear to claim the property. For information concerning property which you delivered to this Department, please call the Property Clerk's office in the borough in which the property was turned in. The Property Clerk offices are located at:

General Emergency Department Discharge Instructions

We appreciate that you chose us as your healthcare provider.

This form provides you with information about the care you received in our Emergency Department and instructions about caring for yourself after you leave the Emergency Department. If you have further questions concerning this visit please call us at the included phone number above on this form. Please keep this form and bring it with you should you need additional treatment. If your symptoms become worse or you are not improving as expected and you are unable to reach your usual health care provider, or get to your follow-up appointment, you should return to the Emergency Department immediately. We are available 24 hours a day.

General Emergency Department Discharge Instructions (continued)

It is important that you keep appointments that may have been scheduled. If you are unable to make an appointment, please call the corresponding clinic to reschedule your appointment.

Home Medication Information

The list of your home medications is based on the information provided by you (or your representative) during your Emergency Department visit, and/or the information contained in your medical record. In addition, some of your home medications **may have been changed** by the Emergency Department provider who evaluated you. These changes **may** include:

- · New medications
- · Changes to the amount or how often you take a medication
- · Discontinuation of a medication

Please review the information below carefully. Continue all your current medications as you are presently taking, with the exception of the following changes below. If you have questions about any of the medications or the changes, please contact your Primary Care Physician, the Provider who prescribed the medication, or your Pharmacist.

Changes to Your Medication List

START taking these medications

predniSONE 20 MG tablet Commonly known as: DELTASONE

Take 2 tablets (40 mg total) by mouth daily for 3 days.

Vendrix Desinor (MRN: 1638008) • Printed at 5/10/2024 7:50 AM

Expires: 7/5/2024 4:53 AM

After you sign up, please update your MyChart Profile with the most up-to-date Contact and Insurance information so we can reach you and help you with your

- 1. Contact Information: Go to the Profile tab, then click Personal Information, then click Contact Information.
- 2. Insurance Information: Go to the Billing tab, then click Insurance Summary, then click Add a Coverage.
- 3. Insurance Enrollment Assistance: For assistance with insurance enrollment, go to the Billing tab, then click Financial Assistance. One of our staff will reach out to you to help you enroll in insurance coverage or financial assistance, if eligible.

Additional information:

If you have questions, you can go to: https://epicmychart.nychhc.org/help to contact our MyChart staff. Remember, for emergencies, always call 911 - do not use MyChart.

Your Treatment Plan

The treatment you have received during your visit was provided on an emergency basis only and is not meant to be a replacement for ongoing medical care. The information provided in these discharge instructions, including follow up information, should be followed in order to ensure proper treatment of your condition.

NYC Health and Hospital Virtual ExpressCare

Introducing Virtual ExpressCare: Get Urgent Care with Just One Click

Virtual ExpressCare is an easy way to see a doctor about health issues that are not emergencies. You can see one of our doctors in less than 5 minutes from your home. We have interpretation services in over 200 languages.

Go to Expresscare.nyc to start a video visit from your smartphone or computer. You do not need to download any applications. A NYC Health + Hospitals support hero will help you register, and a doctor will see you.

Get high quality, low-cost urgent care from anywhere! ExpressCare takes most insurance plans. If you do not have health insurance, we can help you enroll. If you do not qualify or cannot afford health insurance, we can help you get NYC Care, our health care access program.

Visit Expresscare.nyc or call (631) 397-2273 or point your smartphone camera at the QR code to talk to a doctor now.

COVID-19 Message

For the latest information from NYC Health + Hospitals about COVID-19, including testing sites, vaccines, care & treatment, and more resources go to www.nychealthandhospitals.org

If you have a fever, cough, sore throat, or shortness of breath that is unrelated to an existing condition, or have questions about COVID-19 testing, please call 1-844-NYC-4NYC (1-844-692-4692).

The updated booster vaccine is now available! To make an appointment or for information about vaccines, please call 1-877-VAX-4NYC (1-877-829-4692)

Thank you for being a patient at KINGS COUNTY ADULT ED today. If your prescription was sent to the internal hospital pharmacy, please keep this paper for your records and provide to the pharmacist when you arrive. Thank you again!

Patient EMPI: 24816168 - For Internal Pharmacy Use Only

SDNY PRO SE OFFICI

ALL HONORABLE JUDGES
UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF NEW YORK
(PRO SE OFFICE)
500 PEARL STREET
NEW YORK, N.Y. 10007

· DEAR : HONORABLE JUDGE

ALL THIS MATTER MAY CONCERN ALL HIGHER POWERS
AND AUTHORITY ... ALL HIGHER POWERS OF THE HIGHER POWER
COURTS. THAT THIS STATEMENT IS THE TRUTH, NOTHING BUT THE
TRUTH. THE FACT OF THIS STATEMENT IS NOT JUST ON THIS PIÈCE
OF PAPER HOWEVER Also ON THE DISTRICT 30 POLICE OFFICERS OF
THE TRANSIT BUREAU RESPONSE TEAM BODY CAMERA. AND ALSO THE
DISTRICT 30 M.T.A. POLICE STATION ON THE A-C. & TRANSIT
LINE HOYT SCHEMERHORN TRAIN STATION CAMERA.

ON 03/28/2024 AT THE APPROXIMATE TIME OF ABOUT 5:45 TO 6600 P.M. AT THE HOYT ST TRAIN STATION ON THE #2 AND 3 TRANSIT LINE. I WENT THROUGH THE TURN STICE BECAUSE I WAS HAVING A SEVERE ASTMA ATTACK TRYING TO GET A #2 FLATBUSH AVE BOUND TO THE WINTHROP STREET

TRAIN STATION IN ORDER TO GET TO KINGS COUNTY HOSPITAL EMERGENCY WHERE I WOULD NORMALLY ATTEND ASTHMA TREATMENTS. AS I STOPPED AT THE NEAREST BENCH TO REGAIN MY BREATHING ABOUT 6 TO 7 M.T.A. OFFICERS IN DARK (NAVY) BLUE COLORED TOP AND HAHK! PANTS APPROACHED ME AND ONE DEMANDED MY I.D. & THE FACT I AM EPERMENTIALE JUNDER-GOING THE ASTHMA ATTACK / WHERE IT'S CLEARLY HE CAN HEAR AND SEE THE HARSHNESS OF MY BREATHING CONDITION - PROBABLY AUDIBLE THROUGH His BODY CAM. AS I AM HANDING HIM THE IDENTIFICATION CARD I EXPLAINED TO THE CAUCASSIAN OFFICER AS HE SNATCHED THE I.D. (ON HIS BODY CAMERA-IN THE NAME OF THE LORD GOD ALMIGHTY I'M BEING HEARD AND SEEN HAVING PROBLEMS BREATHING - ALTHOUGH 3 FEET APART AS A FISH OUT OF WATER) THIS GUY WORA'ED ABOUT A COLLAR MORELESS MY LIFE, IN RETURN ME VENDRIX UNFORTUNATELY YOU DO NOT HAVE A WARRANT; YOU DID NOT GET IN TROUBLE WITH M.T. A. FOR AT LEAST TWO YEARS ... HOWEVER I HAVE TO TAKE YOU IN BECAUSE YOU ARE A M.T.A. RICIDIVIST. CWITHOUT READING My MIRANDA RIGHTS) HE QUICKLY PLACED HAND CUFTS. HIM AND HUREE OTHERS DROVE BACK TO THE DISTRICT 30 WHERE THE ARREST TIME AT 6:30 P.M. GEHING SEARCH FOR CONTRABANDS IN FRONT OF THE DESK SARGEANTY E.M.S. CAME JUST AS OFFICER PREVIL CWHOM WAS TAUNTING METHE ENTIRE TIME ALTHOUGH I'M DIE-YING) AND ANOTHER OFFICER WAS GIVING ME A SECURITY SEARCH. THE E.M.S. WORKER WITH A NAME TAG "GEORGE" CHECKED ME WITH A STETOSCOPE - SOON AS HE HEARD MY BREATHING INSTANTLY PUMPED ME WHA STEROIDS OXYGEN / NEBULIZER AND RUSHED ME TO N.Y. U. ZANGHORN HERITH COBBLE HILL HOSPITAL. WHEN I GOT TO LANGHORN DOCTORS PROMOUNCED HAD I GOT THERE COUPLE OF SECONDS AFTER I WOULD OF DIED.

Upon RETURN BACK TO DISTRICT 30 FROM LAWGHORN N.Y. U. HEALTH & WAS SHACKELED TO TWO OTHER INDIVIDUALS HEAD BOUND FOR CENTRAL BOOKINGS - WHILE ENTERING THE TRANSPORT VAN A TRIED ADVISING THE TWO OTHER INDIVIDUALS ACCURDING TO THE ACKWARD TETRIS POSITION I WILL HAVE TO ENTER THE VAN FIRST - NO ONE WOULD LISTEN !; THE OFFICERS THAT WAS SO FOCUSED ON HOLDING UP THE BODY CAMS. OR THE OTHER TWO

INDIVIDUALS - HOWEVER WHEN THE OFFICERS REALIZED I WAS RIGHT TO THE VELOSITY - THEY ORDERED ME AND THE BUYS BACK OUT OF THE VAN AND TOID ME TO RE-ENTER FIRST. Upon ENTERING THE VAN MY HEAD (RIGHT EYE) BUMPED INTO A METAL OBJECT THAT WAS SUPPOSED TO BE A PART OF A HEADREST "WHICH WAS NOW ALTERED AND STRUCTURED" TURNED INTO A WRESTLING STYLE TURNBUCKIE WITHOUT PADDING OR PROTECTION. CLEARY WAS ALTERED BY THE POLICE INTENTIONALLY. AND HAD SOMEONE DID NOT KNOW IT WAS THERE WOULD ACCIDENTALLY BUMPED THEYRE HEAD AS I DID. CLEARLY ON CAMERA I'M ASKING WHAT HAPPENED TO MY EYE. AM I CUT, AM I BLEEDING.

AT CENTRAL BOOKING WHILE OFFICER KADID TAH TRANSPORT AND TRYING TO SEE THAT THE PAPER WORKS GET COURT READY. I WAS SEEN BY THE E.M. S. BEAM. A YOUNG LADY ASKED OF MY HEALTH CONDITIONS AND IF I WAS BKAY. BY TOLD HER ABOUT THE LACERATION WITH THE EXTREME PAIN, THAT I'M ASTHMATIC 3 I'M DIABETIC, SHE PERFORMED A FINGER STICK. THE READINGS ON THE DIGITAL READER. (READS OVER TOO HIGH) THE YOUNG LADY AUTOMATICALLY HEALTH WHERE I WAS TREATED WITH PAIN KILLERS FOR THE LACERATION, BLURRY VISION, EMPARED VISION AND HAVE TO TURN MIX HEAD AND NECK TO THE RIGHT THE FACT I'M HAVING CATARACT ISSUES OR CORNEA ISSUES, ASTHMAN DIABETIC.

BY that Time WAS 03/29/2024. 03/29/2024 WHEN SEEINE AND TALKING ABOUT THE CASE WHICH I THOUGHT I WOULD BET TIME SERVE, THAT SOME HOW A DIFFERENT OFFICER SWITCHED TOUR CHANGE WITH OFFICER KADID TAH WHOM CAME FROM N.Y. U. LANGHORN HEALTH HOSPITAL TOLD ME WAY ID BE A MIS DER MINOR, THAT WAS ORIGINALLY A VIOLATION HAD SOME HOW WORDED INTO A FELONY. MY LEGAL AID ATTORNEY WAS ASTOLIND, AMAZED. SHOCKED (CRIMINAL DEFENSE) SHAFF ATTORNEY OF 111 LIVINGSTON STREET: BROOKLYN, N.Y. 112019 TEL (718) 243-6220

FAX (646) 616-4220; CELL (646) 629-9349.

CHARGED ME WITH ORIMINAL POSSESSION OF WEAPON FOR TWO TINY MINT BALL

BIZE PEBBLES THATS NOT EVEN BIGGER THAN TWO TEN CENTS PREPARENTY

BALLS FROM THE DELI. (NOT STONES) (NOT ROCKS OR DOZERS) (ALLON CAMERA)

THAT SAME DAY 03/29/2024 AFTER BEING RELEASED FROM GOURT AT

TIME WENT BACK TO DISTRICT 30 TO REFRIEVE MY PROPERTY HAT WAS VOUCHERED

THE TWO PERFORMENT WITH THE RETURN OF MY PROPERTY HAT WAS VOUCHERED

THE TWO PERFORMENT WITH THE RETURN OF MY PROPERTY HAT WAS VOUCHERED

THE TWO PERFORMENT BALLSTEE PEBBLES.

I Also ON 04/03/2024 CALLED THE INTERNAL AFFAIRS AND TELL THEM OF NUMBER FOR MY FILE (2024 9805).

FUATHERMORE ASTHMA IS RESPIRATORY, I COULD of DIED ANY PRIOR SECONDS WITHIN THE TIME to DISTRICT 30 OR THE TIME E.M.S. BUMPED ME WITH STEROIDS AND ONYGEN.

MR: AND MRS: HONORABLE ONE NO BLIND MAN NEED READING

PLEASE TAKE NOTE OF THE COMMENCEMENT OF THIS MATTER AS THE END OF THIS MATTER. FOR I HAVE CLEARLY REST MY CASE AND ABUSE OF THIS MATTER.

BEFORE THE EM,S. WORKER BY THE NAME OF GEORGE" RESCUED ME.
NO COINCIDENT HONORABLE GEORGE" WAPKON "GEORGE" NO NEED
TO BE CURIOUS JUDGE" GEORGE" & HONORABLE JUDGE.

FOR THE ACHUAL FACT THAT EARLY NESTLE QUICK, ADEQUATE MEDICAL ATTENTION WAS PROVIDE TO ME, THE EIGHTM AMENDMENT

OF MY RIGHTS HAS BEEN VIOLATED; MY FIFTH AMENDMENT FOR NO MIRANDA WAS MIRANDIZED BEFORE ME; EITHER OR NETTHER TO ME. MR. / MRS. "HONORABLE ONE. I DEMAND THE AllowANCE OF THE COMPENSATORY AMOUNT OF DOLLAR/AMOUNT OF. \$ 5.000.000 FIVE MILLION DOLLARS AND NO CENTS.
